Databricks Academy Course Catalog

UPDATED: AUGUST 2023

Welcome to the Databricks Academy **3**
About the Databricks Academy 3
Training Offerings 4
Learning paths 5
Databricks Lakehouse Fundamentals 5
Data analysis 6
Data engineering 6
Machine learning 7
Platform administration (cloud agnostic) 8
Platform architecture - Azure 8
Platform architecture - AWS 9
Platform architecture - Google Cloud 9
Apache Spark 9
Databricks Academy Updates for this quarter (August - September - October) **10**
Content published/updated 10
New courses currently under development 10
Content retired/to-be-retired 11
Databricks Academy Content Descriptions **11**
Certification exam/accreditation descriptions 11
Instructor-led course descriptions 11
Self-paced course descriptions 11
Access Shared Data Externally with Delta Sharing 12
Access Shared Data Externally with Delta Sharing 12
Advanced Data Engineering with Databricks 13
Apache Spark Programming with Databricks 14
AWS Databricks Cloud Integrations 14
AWS Databricks Networking and Security Fundamentals 14
AWS Databricks Platform Administration Fundamentals 15
Azure Databricks Cloud Integrations 16
Azure Databricks Networking and Security Fundamentals 16

Azure Databricks Workspace Administration Fundamentals 17
Build Data Pipelines with Delta Live Tables and Spark SQL 19
Build Data Pipelines with Delta Live Tables and PySpark 20
Certification Overview: Databricks Certified Associate Developer for Apache Spark Exam 21
Certification Overview: Databricks Certified Data Analyst Associate Exam 21
Certification Overview: Databricks Certified Data Engineer Associate Exam 22
Certification Overview: Databricks Certified Data Engineer Professional Exam 23
Certification Overview: Databricks Certified Machine Learning Associate Exam 23
Certification Overview: Databricks Certified Machine Learning Professional Exam 24
CI/CD Administration in Databricks 24
Compute Resources and Unity Catalog 26
Data Access Control in Unity Catalog 26
Data Administration in Databricks 27
Data Analysis with Databricks SQL 27
Data Engineering with Databricks V3 27
Data Visualization on Databricks SQL 28
Databricks Compute Resource Administration 28
Databricks Identity Administration 29
Databricks Platform Administrator Fundamentals 29
Databricks Workspace Administration and Security 30
Delta Sharing Best Practices 31
Deep Learning with Databricks. 32
Deploy Workloads with Databricks Workflows 32
Getting Started with Databricks Engineering on Databricks 33
Get Started with Databricks for Business Leaders 34
Get Started with Machine Learning on Databricks 34
Getting Started with Data Analysis on Databricks 35
GCP Databricks Platform Administration Fundamentals 36
GCP Databricks Networking and Security Fundamentals 37
GCP Databricks Cloud Integrations 38
Generative AI Fundamentals 38
Generative AI Fundamentals Accreditation 39
How to Ingest Data for Databricks SQL 39
Introduction to Delta Sharing 40
Introduction to Photon 41
Introduction to Python for Data Science and Data Engineering 41
Introduction to Time Series Forecasting with AutoML 42

Introduction to Unity Catalog 42
Machine Learning in Production(V2) 43
Manage Data with Delta Lake 43
Manage Data Access with Unity Catalog 44
New Capability Overview: bamboolib 44
New Capability Overview: Data Lineage with Unity Catalog 46
New Capability Overview: Data Profiles in Databricks Notebooks 47
New Capability Overview: Databricks SQL Serverless 47
New Capability Overview: Global Search 48
New Capability Overview: Model Serving 49
New Capability Overview: ipywidgets 50
New Capability Overview: Personal Compute 50
New Capability Overview: VS Code Extension for Databricks 51
New Capability Overview: Workspace Browser for Databricks SQL 52
Optimizing Apache Spark on Databricks 52
Scalable Machine Learning with Apache Spark (V2) 54
Share Data within Databricks Using Delta Sharing 54
Transform Data with Spark 55
Unity Catalog Patterns and Best Practices 56
What is Big Data? 56

Welcome to the Databricks Academy

About the Databricks Academy

The Databricks Academy is the training arm of Databricks - our goal is to help our users achieve efficient and effective use of the Databricks Lakehouse Platform to reach their big data and AI goals.

Via the Databricks Academy, you can access self-paced e-learning and instructor-led courses that help you prepare for Databricks certification exams and focus on how to use the Databricks Lakehouse Platform for:

- Data engineering
- Machine learning and AI
- Data analysis
